

NEXT 72 INTELLIGENCE

# Find People, Patterns & Activities With Advanced Geolocation Capabilities.

Active & Historical Cellphone Intelligence for Private Investigators and their clients. A high tech tool to help you answer the critical questions. Where do they go, who do they see, what do they do, when do they do it, where are they now?

## Who We Are

For over 40 years, our elite team of intelligence experts and former law enforcement professionals has delivered powerful, actionable insights to private investigators, attorneys and corporations. Leveraging advanced technology, we scan over 18 billion cellphone signals daily worldwide, providing both real-time and up to 3 years of historical geolocation data to provide actionable intelligence on people's active or historical movements.

## Why Choose Us

### Deep Industry Experience

Our technology is second to none and has cracked cases ranging from drug cartels, terrorist groups, cargo theft rings, counterfeiters to insider theft & espionage.

### Consulting Expertise

We have provided services for the FBI, Secret Service, Homeland Security, Law Enforcement, Investigators, Attorneys and Corporations Worldwide

### Powerful Intelligence

We are committed to providing innovative solutions that can be a game changer in your investigations
